PAYING GRANTS DOCTORS.

I hear that Mrs. Grant bas considere that \$12,000 would be respectable remuneration for the medical attendants of Gen. Grant, who have put in no bill whatever. Six thousand dollars of this money was raised by Stanford, Hunting ton, and Crocker of the Central Pacific

SINGULAR PHENOMENON.

A phenomenon that is attracting considerable attention exists near Wellaburg, be put into the field. The public good de- W. Va., and is thus described in a Pittsburg paper: Some time ago a number of Wheeling capitalists drilled for gas, and after going down some 400 feet encountered a good flow. Prosecuting their work they went down about 1300 feet when the well was abandoned and the casing removwere startled by a subterranean rumbling and roaring followed by a discharge of water which rose in a solid column to a height of nearly 500 feet. This column was perpendicular for fully a minute before it broke into a small shower. No further demostration was noticed for six hours. when the same act was repeated and has been at the same interval ever since. The phenomenon has caused considerable local excitement, hundreds visiting the place only to observe it. It is supposed that the impulse given to the water is from the old vein of gas.

This powder never varies. PLAGUESTRICKEN PLYMOUTH!

"Judge," said a young lawyer to a very successful senior, "will me the secret of your uniform success at the bar."

"Ah, young man, that secret is a life study, but I will give it to you on condition that you pay all my bills during this session of court."

"Agreed, sir," said the junior.

"Evidence, indisputable evidence."

At the end of a month the judge reminded the young man of his promise.

"I recall no such promise."

"Ah, but you made it."

"Your evidence, please?"

And the judge, not having any witnesses, lost a case for once!

The man who can produce indisputa-

nesses, lost a case for once!

The man who can produce indisputable evidence wins public favor. I had an interview yesterday with the most successful of American advertisers, whose advertising is most successful because always backed by evidence.

"Have you many testimonials?"
In answer he showed me a large cabinet chock-full. "We have enough to fill Boston, New York, Chicago, St. Louis, and Philadelphia morning pa-

"De you publish many of them?"
"Not a tithe. Wonderful as are those we do publish, we have thousands like them which we cannot use. 'Why not?' Let me tell you. 'Warner's Safe Cure' has probably been the most successful medicine for female disorders ever discovered. We have tastimonials many statesmen, lawyers, clergymen, doctors of world-wide fame have been

"When read, they make such an im pression that when the 'evil days' of ill health draw nigh they are remem-bered, and Warner's Safe Cure is used." "No, sir, it is not necessary now, as at first, to do such constant and extensive advertising. A meritorious medi-cine sells itself after its merits are known. We present just evidence enough to dis-arm skeptics and to impress the merits of the remedies upon new consumers. We feel it to be our duty to do this. Hence, best to accomplish our mission of heal-ing the sick, we have to use the reading-

"Yes, sir, thousands admit that had "Yes, sir, thousands as mit that had they not learned of Warner's Safe Curs through this clever style they would still be siling and still impoverishing themselves in fees to unsuccessful 'practitioners.' It would do your soul good to read the letters of thanksgiving we get from mothers grateful for the perfect success which attends Warner's Safe Cure when used for children, and the surprised gratification with which men and women

cured, not two per cent. of them report a return of their disorders. Who else

poisoned. The kidneys and liver are the sources of physical well-being. If polluted by disease, all the blood becomes poisoned and every organ is affected and this great danger threatens every one who neglects to treat himself promptly. I was nearly dead myself of extreme kidney disease, but what is now Warner's Safe Cure cured me, and I know it is the only remedy in the world that can cure such disorders, for I tried everything else in vain. Cured by it myself, I bought it and, from a sense of duty, presented it to the world. Only by restoring the kidneys and liver can disease loave the blood and the system."

said to me, "The secret of the wonder-ful success of Warner's Safe Cure is that it is severeign over all kidney, liver, and

it is sovereign over all kidney, liver, and urinary diseases, which primarily or secondarily make up the majority of human ailments. Like all great discoveries, it is remarkably simple."

The house of H. H. Warner & Co. stands deservedly high in Rochester, and it is certainly matter of congratulation that merit has been recognized all over the world, and that this success has been
